

## THEY'RE HERE, THEY'RE THERE, THEY'RE EVERYWHERE—THEY'RE THE WAVE OF THE FUTURE!

One has been sighted on a station wagon in Norwell. Several are firmly attached to a building in downtown Boston. They've been reported in American Samoa, and officials from New Hampshire, Maryland, and Delaware have inquired about them. Are they some unknown marine life form? Or a rare bird? Hardly. They're this summer's hottest item: blue, white, and purple "coastal zone management - it's the wave of the future" window decals and they're available for the asking...
